Building short vowel word family puzzles is a simple and engaging way for students to practice short vowel sounds. Each short vowel set comes with a word family recording sheet and puzzle answer key.

Introduce the puzzles at teacher table, then move to a center with copies of the recording sheets for accountability.

Prep: Print, laminate, and carefully cut each set. **If multiple vowel sets will be used together, be sure to print each set on a different colored paper to avoid mix-ups.**

An answer sheet is included for each vowel set. Have your students try to build the words, then refer to the answer sheet to check their answers.

Once the puzzles are built, students record their completed puzzle words on the recording sheets.
